

Things to remember in Year Three:

- We have PE with the sports coach on a Tuesday on these days please make sure your child has their PE kit in school with them as your child will be getting changed in class. There will also be a second PE session taught by class staff (day to be confirmed)
- Year Three Children will be given access to Times Table Rockstars. Regular, consistent practice of these is vital!
- If we would like a snack at break, children must bring a healthy snack in as snacks will no longer be sold at break times.
- We have a strong reading culture in Year 3. We want children to continue this love for reading at home. Children will lend books from our class library to bring home and read. Please encourage your child to read at least 10 minutes a day at home to help them become fluent readers. Your child will bring a reading record home, we do encourage KS2 children to begin to fill these in themselves but they may need some support to begin with. Pupils will be awarded CLEMS to use at the CLEMS shop for their reading efforts!
- Homework and KUNCU will be given as necessary throughout the year.

Learning in Year Three:

- In Writing we are focusing on making sure we maintain the basic writing skills we had developed so far, and begin to develop a love for writing. We will also focus on adding different elements to our writing through the term. We will continue to build up our knowledge of SPAG and recap and apply previous knowledge from this.
- In Guided Reading: We will be working on becoming fluent readers, who can read with expression. We will also be developing key reading skills, such as predicting, retrieving, defining, summarising and inferring.
- In Maths, we will be continuing our look at number and place value, this time including numbers to 1000. We will then be working on the four operations—addition, subtraction, division and multiplication including reasoning and problem-solving in all these areas.
- Our Topic this term is ROCK OF AGES. We'll be looking at Rocks and soils, how they are made, and how important they are to us!
- In Science we will be covering Light and how this affects the human eye and brain.
- Children work best with Routine—please ensure you are providing lots of breaks and rest, especially from screens before bedtime!

ATTENDANCE: It is so important that you are in school EVERY DAY. We should be achieving 100% attendance and it would be fantastic to achieve this. PLEASE send your child to school every day.

GROWTH MIND SET: In year three we have a growth mind set, which means we always try our hardest, learn from mistakes and challenge ourselves. Try this at
